FUEL CELL & HYDROGEN TECHNOLOGY REPORT

Design, Manufacture, and Integration Solutions for Fuel Cells and Hydrogen Technology

Fuel Cell & Hydrogen 2024 Technology Report

A Resource Guide for the Design, Manufacture & Integration of
Fuel Cells and Hydrogen Technology

About

A magazine-style publication focused on solutions in fuel cell and hydrogen technology for the design and manufacture of e-mobility and sustainable power products.

Target Audience

There are three main segments of the target audience, all worldwide in scope:

- 1) OEM engineering and R&D decision-makers involved in the development and manufacture of fuel cell and hydrogen technologies, and integration into products and services for stationary power and e-mobility such as automobiles, buses, trucks, marine, rail and aviation, industrial applications, defense and transportation. (Approximately 70,000)
- 2) End-Users comprised of technical and operational professionals with organizations that implement fuel cell and hydrogen technologies into their operations to achieve safe, green and sustainable capabilities in markets such as utilities, manufacturing, government, military, transportation, energy/power, facilities and other high-volume power and fuel users. (Approximately 76,000)
- 3) Investment & Analyst community including public and private investment organizations that support fuel cell and hydrogen technology; capital market investment professionals who seek stakes in emerging companies and project finance; market analysts and media. (Approximately 4,000)

Content

The publication will include a mix of technical and market articles, application profiles, and vendor product and service information. There are three principal components to the guide:

- Technology Review and Market Outlook articles written by leading industry professionals, analysts and staff editors.
- Advertisements.
- Vendor Showcase articles – as a participating vendor, you receive a free space to include your own editorial content such as a company profile, technical article, application profile, product announcement or news release.

Distribution & Demographics

The guide will publish initially via a digital distribution of 150,000 copies worldwide. Beyond its initial distribution, the guide will have a full-year's continuing distribution and promotion through online accessibility and to attendees at key trade shows worldwide. Geographic distribution is approximately 60% Americas; 35% Europe; 5% Other.

Markets Served

Automotive, Aviation, Aerospace, Military/Defense, Marine, Energy/Power, Industrial Equipment, Standby Power.

Who Should Advertise

Suppliers of products and systems, components, engineering and integration services and supplies for fuel cell power systems and hydrogen resources.

Benefits to Participants

- Reach a large, highly-targeted worldwide audience.
- Reach all market segments for fuel cell and hydrogen technologies with a single purchase.
- Participants are featured and showcased in the editorial content of the guide, and benefit from its solutions-oriented, sourcing impact.
- Powerful lead generation: Your ad, profile and article are hot-linked directly to your website for immediate, direct response. You control all follow-up and contact.

Publish Date: April 1, 2024 (Spring) September 1, 2024 (Fall)

Space Close: March 1, 2024 (Spring) August 1, 2024 (Fall)

Materials Deadline: March 15, 2024 (Spring) August 15, 2024 (Fall)

Format: 8.5" x 11" full-color, high-quality digital magazine, approx. 32 pages

Website Advertising

NewPowerTechnology.com has thousands of visitors each month that are looking for news on the latest in sustainable power technology. Returning visitors as well as an increasing amount of new visitors provide advertisers with high quality potential customers.

Monthly Rates (NET)

Size	1X	3X	6X
A Top Leaderboard 728 wide x 90 tall	\$1,500	\$800	\$525
B Lower Leaderboard 728 wide x 90 tall	\$1,375	\$675	\$450
C Sidebar 468 wide x 300 tall	\$1000	\$575	\$400

Banners should be in jpg, gif, animated gif, or flash format, 72 dpi, RGB color and the size specified above. All positions are sold on a 50% alternating basis. Add 30% to the rate for 100% basis.

GMW Associates All-in-one 3-axis Magnetic Field Mapper for Magnet & Rotor Assembly Characterization and Quality Control
 WWW.GMW.COM | SALES@GMW.COM

Introducing a new media resource dedicated to the manufacturing sector for electrification and e-mobility.
 See below for info and sign up to receive the e-newsletter.

eAxes Are the Critical Integration Point, Strategizes Cummins in Meritor Acquisition
 Diesel-engine manufacturer Cummins says it believes e-axes are the critical integration point in vehicle electrification as it prepares to finalize its \$3.7 billion acquisition of component maker Meritor by the end of the year. Meritor, meanwhile, continues to build its portfolio of e-propulsion axes and other systems for advancing technology and market clout in electrification – all likely soon to accrue to Cummins.

Enercon Embraces Innovation to Manufacture Massive Wind Turbines
 Manufacturing a large wind turbine is a daunting task. Loaded with expensive magnet arrays and intricate coil windings, they require heavy, precision-engineered rotor hubs that can be challenging to move into place on the factory floor. German wind turbine manufacturer Enercon GmbH is using an innovative solution to handle the massive hubs. Instead of cranes and slings, a new turning table is performing the heavy lifting and positioning. Another innovation at the company is development of new e-nacelles.

Digital Magazine Advertising Specifications & FTP Site Information

Complete ads accepted in PDF, TIFF or EPS formats only. No Word documents are accepted. All ads must be converted to CMYK and at 300 dpi resolution. All fonts and graphics must be included with 300 dpi (minimum) versions of EPS or TIFF, and CMYK images. You may e-mail small ad files (less than 5 mgs) to Scott Webster, Director of Content. Please see publication info page for materials deadline. A late fee will be incurred if materials are not received by deadline date.

Sending Files Electronically

For files less than 5 mgs, send file via e-mail to Scott Webster, Director of Content, at ScottW@WebcomCommunications.com. For files over 5 mgs, file can be uploaded to Webcom's FTP site using a compatible FTP software program.

FTP Site Instructions

1) Please e-mail Ross Webster, Director of Operations & Customer Service, at RossW@WebcomCommunications.com, to indicate you are uploading a file. Include your company name, the file name, and for which publication the advertisement is scheduled in.

2) With an ftp Client

host name: www.webcomcommunications.com

username: ads

password: Webcom21

3) Through Windows Explorer

<ftp://ads@www.webcomcommunications.com>

username: ads

password: Webcom21
